

COLLE REVETEMENTS DE RENOVATION

GLUE FOR RENOVATION COVERINGS SMOOTH WALL COVERINGS, FIBRE-GLASS COVERINGS AND FRIEZES

TECHNICAL DEFINITION

Odourless glue in aqueous dispersion, ready mix for flexible wallcoverings. Usable in interiors on walls and ceilings.

COMPOSITION AND ASPECT

Resin in emulsion, starch, rheological agent and various adjuvants. The paste is white.

SUITABLE SUBSTRATES

Interior walls and ceilings.

- Coverings up to 400 g/m² for ceilings and up to 500 g/m² for walls.
- Concrete.
- Plaster boards.
- Primer coat.
- Cement coating.
- Plaster blocks.

TECHNICAL SPECIFICATIONS

- Tacky-dry time: 5 to 10 mn.
- Open time: 30 minutes.
- Setting time: 12 to 24 hours.
- Density: approximately 1.
- Dry extract: 14 %.

PACKAGINGS

5 kg pot on covered pallet.

STORAGE

- 6 months frost-free and away from high heat in original unopened packaging.

APPLICATION

PRECAUTIONS FOR USE.

Close the pot after use.
Working temperature: 10 to 25° C.

PREPARATION OF SUBSTRATES BEFORE APPLICATION.

The substrate must be clean, sound, dry, solid, smooth, flat, normally absorbent. Remove old wallpaper or coating. Fill if necessary with a suitable filler. Treat friable or powdery or very absorbent substrates with a substrate hardener. Sand, scrape and remove dust from old paintwork.

APPLICATION AND TYPE OF GLUING.

Follow the recommendations of the coverings' manufacturers.

Apply by simple gluing of the substrate using a roller, a brush or a toothed spatula. Apply glue to an area only corresponding to a maximum of 2 strips. Place the covering on the substrate and smooth out working from the centre towards the edge. Clean any excess glue with a sponge. Clean tools with water

CONSUMPTION.

From 150 to 400 g/m² depending on the covering material and the application tool.

GLUE FOR RENOVATION COVERINGS

Emulsion resin adhesive for use with all renovation coverings.

ADVANTAGES

- Solvent and odour free.
- Ideal for heavy coverings.
- Application with a roller or spatula.

APPLICATION TIP

Always store the covering for 48 hours in advance in the area it is going to be hung.
